

## **SAMPLE TRANSFER AGREEMENT FOR HEALTHCARE PURPOSES**

Should the request for samples be approved, I undertake to:

1. Use the samples provided by the CIBERER Biobank in accordance with the biosafety requirements established by applicable legislation, particularly with regard to their transport and the disposal of surplus material and waste that has come into direct contact with the samples.
2. Ensure the traceability of the samples at all times.
3. Not transfer the samples to third parties for purposes other than those specified in my application.
4. Not use the samples obtained for purposes other than those justified at the time of collection, and to report any incident that may have affected or interfered with the use of the samples for their intended purposes and within the intended timeframe.
5. Acknowledge the source of the samples in any publication in which results obtained from samples provided by the CIBERER Biobank are reported, and provide the Biobank with a copy of the publication.
6. Return any surplus material to the Biobank upon completion of the project.
7. Ensure the availability of any genetic information obtained through the analysis of the samples.
8. In general, refrain from taking any action that would contravene the provisions of CIBERER's internal operating regulations.
